Foundation Ambassador Johanna Ovaska

# Teini-ikäisten tyttöjen terveys ja suojelu Perussa

## ADOLESCENT GIRLS' HEALTH AND PROTECTION IN PERU

- US\$750,000
- Tavoite: Parantaa terveystalveluja vastaamaan nuorten, erityisesti tyttöjen, tarpeisiin ja estää väkivaltaa sen kaikissa muodoissaan kouluissa ja muissa palveluissa.
- Projektin odotetaan tavoittavan 50,364 nuorta (24,829 tyttöä) neljällä eri alueella Perussa.

# Building stronger health care systems for adolescent girls in Peru

The **Adolescent Girls' Health and Protection** project in Peru seeks to guarantee the rights of indigenous and rural adolescents, especially girls, in Huancavelica and Ucayali and respond to their health needs by preventing pregnancy, addressing mental health concerns and providing protection from violence. COVID-19 left Peru in an extended state of emergency, which greatly impacted schools and health services and increased reports of domestic violence and adolescent mental health issues.

Despite these challenges, in 2021, UNICEF, with the support of Zonta International, achieved the following results:

- Strengthened essential adolescent health care services impacted by COVID-19, reaching 13,408 adolescents (8,534 girls).
- Developed technical guidelines for the prevention and response to cases of violence that occur in health establishments.
- Launched a virtual course for health personnel on the provision of online mental health counseling for children, adolescents and their caregivers in the context of school reopening and the return to face-to-face classes.
- Completed the virtual phase of the in-service training program for health personnel.
- Provided remote support to 169 participants to improve their plans to strengthen comprehensive adolescent health care in their establishments.
- Developed a plan to improve the reporting system for school violence cases to ensure access to better data.
- Launched the diploma course on comprehensive adolescent development in November 2021; by February 2022, 82 participants had completed the third module.
- Designed an instrument that schools can use to monitor progress on improvements in school coexistence and the reduction of violence.
- Promoted the improvement of the mobile application used to report cases of violence at school and planned to disseminate a child-friendly version of the app.

## Lähtökohta:

- 40% perulaisista 12-17-vuotiaista nuorista kokee väkivaltaa kotona, 44% koulussa (myös fyysisiä rangaistuksia).
- Nuoret eivät ole kattavasti laadukkaiden terveyspalvelujen piirissä, ei riittävästi seksuaalikasvatusta.
- Paljon lapsiaviolittoja, teiniraskauksia, seksuaalista väkivaltaa, lasten fyysistä rankaisemista.

Terveystenhoitohenkilöstön kouluttamista huomioimaan erityisesti nuorten tarpeet

Mielenterveyspalveluja verkossa nuorille, etenkin tarpeen koronan jälkeen kouluun palatessa

Ensimmäiseksi pitää rakentaa kanavat väkivallan raportoimiseksi, jotta siihen voidaan puuttua

Zonta has supported Adolescent Girls' Health and Protection since 2020 and will continue to contribute to its success in the 2022-2024 Biennium. To learn more about this project, visit [zonta.org/peru](https://zonta.org/peru).

# Naisten terveys ja omanarvontunto etusijalla

HER HEALTH AND DIGNITY, OUR PRIORITY

- US\$750,000
- Tavoite: Kaikki naiset ja tytöt Papua-Uudessa-Guineassa ja Itä-Timorissa voivat elää vapaina väkivallasta.
- Projektista hyötyy noin 578,000 henkilöä Papua-Uudessa-Guineassa ja noin 74,000 Itä-Timorissa.

©UNFPA Timor-Leste

# Building violence-free lives for women and girls in Papua New Guinea and Timor-Leste

Lack of a survivor-centered approach is a key challenge in the delivery of gender-based violence (GBV) response services in the Asia-Pacific region, including in Papua New Guinea and Timor-Leste. **Her Health and Dignity, Our Priority: Strengthening Services for Survivors of Gender-Based Violence** aims to strengthen the capacity of GBV response sectors, particularly health, to ensure provision of quality and timely services in adherence to GBV survivor-centered principles.

Though the project faced significant implementation roadblocks due to COVID-19, natural disasters and local political upheavals, in 2022, UNFPA, with Zonta's support, achieved the following results:

## Papua New Guinea

- Completed baseline assessment of family support centers.
- Expanded family support centers in Milne Bay to provide specialized services for GBV survivors.
- Developed an action plan with health authorities in Milne Bay to identify key priorities and support with adequate and sustainable Provincial Health Authority funding for the family support centers.
- Conducted cascade training to build capacities of health staff on survivor-centered care to GBV survivors in Milne Bay.
- Strengthened capacity and functioning of the GBV referral system and case management mechanism.
- Developed information, education and communication materials for awareness raising on GBV.

## Timor-Leste

- Conducted a comprehensive assessment of the health sector capacity to respond to GBV in Liquica municipality.
- Developed, in partnership with Ministry of Health, a national comprehensive competency-based in-service training package for health care providers and managers to address GBV.
- Conducted an orientation workshop to GBV service providers on referral pathway and case management to ensure a strong multi-sectoral response to GBV in Liquica municipality.
- Conducted community awareness activities in Liquica municipality.
- Conducted preparatory work for the establishment of a safe space in Liquica Municipality.

Zonta has supported Her Health and Dignity, Our Priority since 2020 and will continue to contribute to efforts to address violence against women and girls in Papua New Guinea and Timor-Leste in the 2022-2024 Biennium. To learn more about this project, visit [zonta.org/PNGTimorLeste](https://zonta.org/PNGTimorLeste).

## Lähtökohta:

Papua-Uudessa-Guineassa yli 2 naista 3:sta on kokenut fyysistä tai seksuaalista väkivaltaa.

Itä-Timorissa melkein 2 naista 3:sta on kokenut lähisuhteiden väkivaltaa.

Itä-Timorissa useampi kuin 3 ihmistä 4:stä uskoo, että miehellä on oikeus lyödä vaimoaan.

Lähtötilanteen arviointi on tärkeää, jotta voidaan puuttua oikeisiin asioihin

Koulutetaan terveydenhoitohenkilöstöä kohtaamaan väkivaltaa kokeneita

Määritellään hoitopolut ja miten eri palvelut toimivat yhdessä

# Tytöt mukana ilmastonmuutoksessa Madagaskarissa

## ENGAGING GIRLS ON CLIMATE CHANGE IN MADAGASCAR

- US\$500,000
- Tavoite: Tukea tyttöjä ja koko lasten ja nuorten sukupolvea tarjoamalla ympäristökasvatusta Madagaskarilla lapsiystävällisissä kouluissa
- Projektista hyötyy suoraan noin 119,000 koululaista (joista 66,000 tyttöjä) ja koulujen terveys- ja ympäristösuunnitelmista hyötyy epäsuorasti 1,500 opettajaa 700 alakoulussa.

# Building girls' access to learning opportunities in Madagascar

From 2020 to 2022, Zonta International supported the third phase of UNICEF's **Let Us Learn** program in Madagascar. Designed to empower the most vulnerable girls in the country through equitable access to quality learning opportunities, Let Us Learn targeted children in the regions of Androy and Atsimo Andrefana who were transitioning from primary to lower secondary cycle and supported them to complete lower secondary school.

Phase III achieved the following results:

- Construction of two classrooms, to benefit at least 80 children per year.
- 1,200 (52% girls) out-of-school children benefited from catch-up classes and were provided with school supplies and learning materials.
- 800 children (59% girls) were enrolled in school during the reporting period, thanks to the conditional cash transfer (CCT) program supported by Zonta International.
- 14 school personnel (principals and teachers) and 112 students (57 boys and 55 girls) of the 14 lower secondary schools have been trained, and the development and implementation of children's clubs has been supported.
- 54 trainers-of-trainers (31 in Androy and 23 in Atsimo Andrefana) and 122 school principals (108 men, 14 women) have been trained to become trainers themselves and learned how to carry out pedagogical supervision.
- 742 science teachers in Atsimo Andrefana (539 men and 203 women) benefited from pedagogical training to prepare and lead teaching sessions, to design and create adapted teaching materials for practical experiments, and to accompany students through the teaching/learning sessions.
- Eight monitoring and technical support missions were conducted to strengthen the capacity of regional education directors to plan, carry out and monitor educational activities.

## Lähtökohta:

- Etenkin tyttöjen koulunkäynnin tiellä on vielä lukuisia esteitä.
- Ympäristön tila heikko (94% metsistä on hävinnyt, 41% ei vesihuollon piirissä ja vielä vähemmän jätehuollon piirissä)

Koulutilojen rakentamista

Tarvittava tuki sille, että lapset voivat palata takaisin kouluun

Opettajien kouluttamista

Zonta ended its partnership with Let Us Learn in 2022 but continues to support students in Madagascar through the Engaging Girls on Climate Change program. To learn more about the new project, visit [zonta.org/MadagascarClimateChange](https://zonta.org/MadagascarClimateChange).

# Globaali ohjelma lapsiavioliittojen lopettamiseksi

## GLOBAL PROGRAMME TO END CHILD MARRIAGE

- US\$1,200,000
- Tavoite: Laajentaa globaalia ohjelmaa tyttöjen suojelemiseksi ja voimaannuttamiseksi, ja lopulta auttaa lopettamaan lapsiavioliitot kokonaan.
- 12 maassa, joissa lapsiavioliitot ovat yleisiä: Bangladesh, Burkina Faso, Etiopia, Ghana, Intia, Mosambik, Nepal, Niger, Sierra Leone, Uganda, Jemen ja Sambia.

# Building brighter futures by empowering girls to say no to marriage

Though child marriage has declined across most regions in the last 25 years, prior to the COVID-19 pandemic no region was on track to meet the Sustainable Development Goal target of eliminating child marriage by 2030. However, now, up to 10 million more girls will be at risk of child marriage in the next decade due to COVID-19.

The **UNFPA-UNICEF Global Programme to End Child Marriage**, which Zonta has supported since 2018, made several adjustments in the wake of COVID-19, including using virtual methods with beneficiaries, adjusting programming, reallocating budgets and more. With these adjustments, the Global Programme achieved the following results in 2021 with the support of Zonta International and other partners:

- Nearly 2.6 million adolescent girls (aged 10–19) received life skills and comprehensive sexuality education. This number includes vocational training and start-up capital for small economic investments for some girls across the 12 Global Programme countries.
- Almost 16 million community members, including adolescent boys and girls, were engaged in meaningful community dialogues on child marriage, the rights of adolescent girls and gender equality.
- Addressing harmful masculinities and gender norms was a key focus for the Programme, with more than 1.1 million boys and men engaged in dialogues and education sessions.
- More than 55 million individuals were reached by traditional mass media and social media messaging on child marriage, the rights of adolescent girls and gender equality.
- Dialogues with traditional and religious leaders and other community influencers was a key approach, with more than 163,000 people engaged in meaningful discussions and consensus-building to end child marriage.
- Currently, 6,067 service delivery points are receiving support to provide quality adolescent responsive services that meet minimum standards.

Zonta has supported the Global Programme since 2018 and will continue to contribute to its efforts in the 2022-2024 Biennium. To learn more about this project, visit [zonta.org/gpchildmarriage](https://zonta.org/gpchildmarriage).

## Lähtökohta:

- 21% tytöistä menee naimisiin alaikäisenä
- 25 milj. lapsiavioliittoja estetty vuosikymmenen aikana, mutta Covid-pandemia lisäsi riskiä

Tyttöjen kouluttaminen ja voimaannuttaminen

Keskustelua ja tiedottamista lapsiavioliittojen seurauksista esim.

- mitä koulunkäynnin lopettamisesta seuraa
  - varhaisten avioliittojen vakavista terveyshaitoista
- Vapaaehtoiset vuorostaan kouluttavat omia yhteisöjään.

Koko yhteisön sitouttaminen lapsiavioliittojen vastaiseen työhön
